Ransom Dry Goods Company

DAILY BULLETIN.

What Is This?

This is an exact picture of the ball bearings of the Gurney Ball Bearing Umbrella.

The newest thing out in Umbrellas.

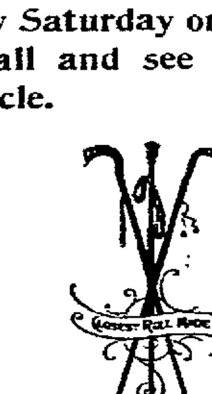

Next Saturday, Dec. 14, we will place on exhibition in front part of our store an endless variety of these goods.

A representative from the factory will be with us, and take orders for any style handles you may choose. This is the most advanced article of its kind in wireless, and its frame work is operated on ball bearing principles.

While the demonstration of this superior umbrella progresses, there will be in view 300 beautiful handles, of the newest and most fashionable types. You may select any of these handles and have them mounted on any one of a half dozen qualities of umbrellas, and thereby obtain an umbrella entirely to your liking without extra charge.

This exhibition on display Saturday only.

Call and see the new article.

Very Respectfully

CHRISTMAS RAPIDLY COMING

Reflection on The Difference Between The Great Celebration in America and England.

[SPECIAL CORRESPONDENCE NO. 1221]

NEW YORK, Dec. 13.—It was generally believed in the Christian world that the age of miracles had passed away when Christ was crucified on the rugged side of Calvary, and yet those living today on the earth are brought face to face in every passing hour with grander miracles than any recorded in our most Holy Book from Genesis to Revelation. I sit here this morning surrounded and almost buried in a more startling miracle than the prophet ever saw. It's the newspaper press of the world. It requires no great stretch of the imagination to sail around the soaring turret of the Eiffel tower. The dream of Montgolfier is realized as he ascended to the companionship of the stars. The mind staggers, reels and faints at the wondrous possibilities unfolded by this magnificent and wonderful revelation of the aerial prophet's dream. Among the possibilities that unfold themselves with this discovery is unlocking the hidden secrets of the pole. No icy barrier now prevents our progress, and what in the future we give to human knowledge may be done with comparative comfort, without the sacrifice of a single life. But the history of the miraculous undertakings does not end here. Across the trackless sea, through the terrors of a night of storm, we can talk with our friends as if they were sitting by our side. If three hundred miles, which seems to be the limit set by Marconi by his wonderful discovery, why not a thousand, and if a thousand, why not 24 along that tireless and silent current which circles the globe and is the mighty motor which moves the world. The creeping mortals that live upon the earth not satisfied with the slow limit accorded them by nature, have by constant study evolved from the mother earth a secret of speed almost undreamed of two decades ago. When Stevenson perfected his first railway ten miles an hour was considered a frightful rate of speed and the question was put to him by the member of the parliamentary committee who was investigating the new invention. "You tell us, Mr. Stevenson, that your carriage is to run on straps of iron nailed to wooden girders, that the road is straight and your carriages, if meeting with an obstacle, could not get out of the way. Now then, suppose your carriage, running at the frightful speed of 10 miles an hour, should meet a bull on the way, what then, sir?" Stevenson, who had lost patience at the foolish inquiry, replied: "It would be d—d hard on the bull." Before his death the great discoverer had the satisfaction of seeing ten multiplied by four. Nor did the limit stop even there, for undreamed of possibilities lay before it.

As a relief to the pedestrian the bicycle began a revolution the end of which would scarcely be conceived. As this invention began to grow toward perfection it was thought by those deep in the mysteries of speed that nothing of reasonable cost and simple mechanism could ever be invented to be of advantage to men of ordinary means. Yet in two years the automobile has forced itself into public attention and crowned itself with glory by completing a wonderful record, a mile in 52 seconds.

But in thinking of this wonderful record, a performance which seems almost beyond human belief, neither one nor all put together will equal the wonderous miracle of the newspaper press.

Who ever thinks, as he sits down to his toast and coffee in the morning, of those tireless workers who through the silent watches of the night are gathering the news of the world, they who are delving in the earth, diving in the sea, soaring to the heavens to spread before their patrons, in attractive form and with so little cost, the latest news from every portion of the globe. The latest wonder among the oceanic destroyers passes out of sight beneath the surface of the sea and for 15 hours cuts off all communication with the outer world. The reporter is there to tell of the miraculous workings of this latest acquate miracle. We find him on the summit of the Chinese wall, looking down in the forbidden city. A dreadful pestilence sweeps through India and millions perish in its track. The reporter searching out choice articles for his journal, is ready to go down with the terrible holocaust if necessity demands it from his vocation. A journal lies before me which only a few years ago was limited to four pages, and even that brief record of no especial interest, yet in a couple of columns side by side I get in brief the news of the entire globe.

The work of Guttenburg and Faust was a revelation, but did either Guttenburg and Faust in his wildest dreams ever conceive it possible that a machine could be invented by mortal man that could throw from its rollers with lightning speed an eight page paper with a record of 40,000 per hour?

To satisfy the enormous financial demands at the present time it is said that the great banker Morgan, whose transactions have filled with amazement most of our financial kings, is now engaged in forming a syndicate to carry out an enormous railroad speculation, the financial basis of which will be about eight hundred millions of dollars. We seem to be hurrying on with lightning speed to the Queen of Sheba's description of the streets around King Solomon's temple, the glory of which not one-half has been told. If we keep going on as we have done within the past decade, perhaps our streets might be paved with silver or gold for a brief period, but with the police on guard to see that the crooks were not disturbed and with Devery in command it would not be long before our pavement would be carted off to the land of promise and we should be glad to come back to Belgian stone, asphalt or even wooden blocks to satisfy the demands of our city officials.

We are rapidly getting toward the most sacred holiday in all our year. Many of us have to face it with fear and trembling, for the pocketbook is not large enough for our desires. Jimmie wants an automobile, Susie—bless her dear little soul!—would be satisfied with a piano, a set of furs and a pair of diamond earrings, and to make up for short, throw in a lace diamond ring and she will say no more about it. Tom, who is going to get married, thinks that a brown stone house is not beyond his desert.

Oh, for that dear old uncle who went to the Klondike, froze his toes on one foot, got the gout in the other, and he also got a pocketful of rocks, which he cannot enjoy and which will gladden the hearts of his sisters, his cousins and his aunts this lucky Christmas tide.

We differ from our friends in England in our celebration of Christmas. The wealthy ones who have houses in the town and country, go into the country in the midst of the winter season to celebrate this glorious holiday. The holly brown hangs on the old oak wall, the massive and generous plum pudding smokes on the table, the brown October flows with a liberal hand, the ripe old sherry and porter, not forgotten: they eat and drink and celebrate with song. The roast beef of old England. Oh, for the English roast beef, raised on the plains of Idaho and Montana. Far different from that we have in America: our wealthy ones celebrate their Christmas in town, and while we have abundance we have no special standard dishes, sacred of the day, like plum pudding and roast beef: but the humblest Englishman expects on Christmas day to have these two standard dishes on his table. In America the toothsome turkey is likely to be the dish de resistance, and we consider our national bird a most excellent substitute. Here we are made to feel that a holiday of uncommon power and demand is approaching. The stores are a blaze of beauty, the riches of the earth are displayed upon their counters, the richest silks of India, the wondrous weaves of Persian looms, the rich dyes of the Sarmacand: the ingenious and wonderful creations of China and Japan and every other civilized nation of the earth bewilder our brains, dazzle our senses and deplete our pockets.

BROADBRIM.

POLICE ARE ACTIVE.

Meeting Will Be Held in Columbus to Talk About the Bank Burglars.

A conference will be held in Columbus, probably at the Chittenden hotel early in January, of the heads of all the police departments of the state. The meeting is called for the purpose of conferring on plans to drive the safe robbers from Ohio.

The many robberies of banks, business houses and residences in all parts of the state in the past few months have decided the officials on radical action, and steps will be taken at the meeting to organize and attempt to capture or drive the robbers out. The meeting will be an executive one, only police officers being admitted, and it is hoped to lay plans that will result in a lessening of these far too numerous crimes. The police department of Cincinnati is at the head of the movement, and letters have been sent to the officials of every Ohio city asking that a representative be sent to the conference.

CHURCH WAS CROWDED

To Hear The Able Sermon by Rev. Mr. Biederwolf Friday.

The Presbyterian church was crowded to the doors Friday evening and Evangelist Biederwolf delivered a sermon that was heard with the closest interest. It was without question the best meeting of the series.

Sunday afternoon Rev. Mr. Biederwolf will preach to men, and in the evening the last meeting of the series will be held. The music of the afternoon meeting will be by the male quartet.

TO ADDRESS MINISTERS.

Rev. Mr. Biederwolf Invited to Speak at The Meeting Monday.

The regular meeting of the Ministerial association will be held Monday morning in the public library, and Rev. Mr. Beiderwolf, whose services at the Presbyterian church during the week have attracted such wide attention, has been invited to deliver an address. An invitation is extended by the association to ministers in surrounding towns to be present.

AN OFFICIAL WAS ILL

The Saltsburg Glass People Did Not Come Friday.

ALL IS IN READINESS FOR THEM

A Meeting of the Board Will Probably Be Called When They Come—Working On Other Project.

The officers of the Saltsburg Glass company did not come to Coshocton Friday for the purpose of winding up business relative to the construction of their plant in the board of trade second addition, but the delay in no way affects the project.

S. M. Roedelheim has been ill again and it was impossible for him to come. President McQuaid and Treasurer Greer did not feel like coming without him, as he had conducted the negotiations with the board, and the matter was delayed. Secretary Boyd looked for them Friday and when they did not come felt confident that he would receive a letter of explanation this morning. It came and gave the facts as stated above.

The glass plant having been landed the board is turning its attention to the agricultural implement concern and interesting developments are expected in due time. It is a matter that cannot be rushed, but the board will use every effort to bring it to a successful issue at the earliest possible date. The concern is looked upon as desirable, and when it is secured for Coshocton another great industry will have been added to the list.

PERFECTION

Is the Hot Water Heating System, Say Those Who Have the Service.

The hot water heating system was placed in operation Friday afternoon and all who have investigated say it is the perfection of hot water heating.

The Park hotel and the jewelry store of Burns & Gosser were connected with the system and the water turned on. In a short time the big hotel building was heated comfortably and at that point the temperature will be maintained. The improvement over the old method was at once noticeable, and Landlord Dyer was being congratulated by his friends. Mr. Burns and Mr. Gosser were more than pleased with the service. A number of other buildings will be given the service during the next few days and before the holidays arrive hot water heating will be very well known in Coshocton.

Engineer Horning, under whose direction the system was installed, is more than pleased with the success that has attended his efforts. He thinks it one of the best he has seen and is confident the system will take a prominent place among Coshocton's popular institutions.

NEW MOVE IS MADE

By Which the Wheeling Will Reach West Virginia Coal Fields.

The Wabash is credited with being behind a new railroad corporation, chartered for the purpose of building a line down the east side of the Muskingum between Zanesville and Marietta. It will parallel the Little Kanawha recently purchased by the Pennsylvania, and will give the Wabash entrance to West Virginia coal fields. Men who are prominently connected with the Wheeling are back of the project.

BLUE LODGE MASONS

Elect a New List of Officers For the Year Friday Evening.

The annual election of the Blue Lodge, Masons, was held Friday evening at their hall in the Miller building and resulted as follows:

Worshipful master, E. S. Lee; senior warden, W. H. Kipp; junior warden, W. J. Davies; secretary, J. M. Hack; treasure, O. P. McGinnis; senior deacon, A. J. Wright; junior deacon, O. C. Howell; tyler, R. F. Sayre.

The new officers will be installed Dec. 27 by B. F. Voorhees. The ceremony will be witnessed by Masons only.

Mrs. Margaret Cowden has been granted a pension of $12 a month. Mrs. Cowden was formerly Mrs. Philip Shafer and at her husband's death was given a pension of $8 a month. When she married Cowden her pension was dropped. Mr. Cowden died a few years ago and Mrs. Cowden now receives a pension as being the widow of Mr. Shafer. M. W. Wimmer was the attorney.

ALL MUST DROP OUT

No Village Officials Hold Over After Spring Election.

ENTIRE NEW LIST TO BE CHOSEN

Council Has Power To Create Wards if it is Deemed Necessary—Opinion of Secretary Laylin.

Coshocton has conformed to the law and is now a city of the fourth grade, second class. It will therefore be necessary to elect an entire new list of officers at the spring election.

Some authorities have held that the councilmen elected last spring would hold over until their terms of two years have expired, but Secretary of State Laylin has a different view of the matter. According to the provisions of the law, he says in answer to an inquiry from THE AGE, the officials elected under the village organization will remain in office until the ensuing annual municipal election.

Council has power to make such division of the territory within the municipality into wards as it may deem proper, and councilmen are chosen from wards when the city has been so divided. Two members of council are allotted to each ward. If Coshocton is divided into six wards, the probable number, there will be a dozen councilmen to elect, each ward electing its own. Under the village government three councilmen were elected every year by the vote of the municipality.

The change will not be as sweeping as if it had been made in another year as the terms of salaried officers expire next spring and three councilmen would go out for the same reason.

In the Contest For Control of the Ohio Legislature.

BOTH SIDES ISSUE STATEMENTS.

A Conference With Senator Hanna at Washington Followed by a Defi. Fire at Cincinnati – Fatal Saloon Row – Other Intelligence of the Buckeye State

Columbus, O., Dec. 14.—John R. Malloy has returned from Washington where he has been in conference with Senator Hanna about the Ohio senatorial ... He announces ... compromise in the ... for ... organization of the general assembly. Mr. Malloy says that Senator Hanna now knows ... in this state and ... that far more ... on the ... the present contest than ... of a few paltry offices in the general assembly. Mr. Malloy stated ... will at once plunge into the ... contest and that the fight will ... to the bitter end.

Mr. Malloy concluded: "Before this contest was precipitated Senator Hanna, with General Dick, held three different conferences in Washington with Senator Foraker. Senator Hanna asked that Mr. Uhl of Cleveland be made clerk of the senate and that Mr. Speelman's name be stricken off Mr. Foraker's slate. He asked Mr. Uhl's appointment in the interests of the Republican party in Cuyahoga county. These requests of Senator Hanna were denied by Senator Foraker at the first and second conferences, and not until Mr. Foraker's refusal at the third conference to make a single concession asked for by Mr. Hanna did the latter determine to make a fight to protect the interests of his friends as well as those of himself."

Charles L. Kurtz gave out an interview in which he made a bitter attack upon Senator Hanna and laid at his door all the blame for the defeat of the party in 1889.

Hon. E. G. Biddison, state mine inspector who is managing the fight of the so-called Foraker candidates, made a statement to the effect that he has positive information that Senator Foraker will stand by his friends. Mr. Biddison said: "The senator is using every effort to bring about an amicable settlement of existing differences relative to the organization of the state legislature. But I can state positively that if these differences can not be amicably adjusted the senator will stand by his friends." It is reported that Senator Foraker will be in Columbus during the holiday recess of congress.

Scene In a Courtroom.

Columbus, O., Dec. 14.—A sensational incident occurred in Judge Bigger's courtroom of the common pleas court. Those involved were Common Pleas Judge DeWitt C. Badger, former Congressman John J. Lentz and Lewis C. Addison of the legal firm of Nash, Lentz, Addison & Fritter, and the affair was precipitated by the filing by the attorneys of an affidavit in prejudice against Judge Badger in receivership case. Judge Badger waxed wroth over remarks he interpreted as insinuations against his honesty. He hurled vigorous epithets at Mr. Lentz. Impassioned denunciations followed. The affair culminated when Judge Badger, it is reported, lightly slapped Mr. Lentz's face. Mr. Lentz, however, denies he was struck.

Fire at Cincinnati.

Cincinnati, Dec. 14.—The plant of the Uneed Superior Wallpaper company at the northwest corner of Bank and Patterson streets, this city, was totally destroyed by fire. The loss is estimated at $75,000, with the insurance half that much. The origin of the fire is unknown.

Fatal Saloon Row.

Cincinnati, Dec. 14.— In a saloon fight here John Batsch shot and instantly killed Edward Smith. Both men are colored.

A FREE WOMAN.

Jury In the Bonine Murder Case Renders Its Verdict.

Washington, Dec. 14.—Mrs. Lola Ida Bonine is a free woman. The jury found her not guilty of the murder of James S. Ayres, Jr., who was found dead from a pistol wound in the Kenmore hotel, this city, on May 13 last. Such a conclusion of the trial was generally expected, the popular impression here being that from the evidence submitted the prosecution had failed to prove its case against Mrs. Bonine. The jury was out less than five hours. Mrs. Bonine was in court and with her were her husband and her two boys and several of her relatives, all of whom have shown their sympathy for her by their constant attendance during the long trial. The jury was discharged and Mrs. Bonine and her friends left the court ... by a back door.

Escaped Convicts Recaptured.

Kingston, Jamaica, Dec. 14. – Advices received here from Saint Lucia, British West Indies, reports the existence of yellow fever at that place. A case of that fever has appeared at Barbadoes. Fifty prisoners who recently escaped from the French penal settlement at Cayenne, French Guiana have been taken over from the police of British Guiana by the French authorities. All these men were serving life sentences.

For Supreme Court Building.

Washington, Dec. 14.—Representative Mercer of Nebraska introduced a bill for a building in Washington for the United States supreme court, the department of justice and international tribunals, to cost not exceeding $7,000,000 for site and building.

Cup Challenger Scorched.

New York, Dec. 13. — Sir Thomas Lipton's cup challenger, Shamrock II, narrowly escaped being destroyed by fire. Only the strenuous efforts of the firemen saved her. As it was, she was badly scorched on one side. The fire burned the boiler shop of the J. M. Robins company at Erie basin, Brooklyn, where the Shamrock was laid up for the winter. One of the Shamrock's launches was consumed. The total damage from the fire is estimated at $100,000.

Zero and Worse.

Lincoln, Neb., Dec. 14.—Zero weather and worse is prevailing all over central and southeastern Nebraska, and the mercury is steadily falling, but with an absence of snow in any quantity, live stock, it is thought, will not suffer greatly.

CUT WITH SWITCHES.

Three Persons the Victims of a Band of Whitecaps.

New Albany, Ind., Dec. 13.—News reached this city of an outbreak of the whitecaps in Crawford county, near English. During the past week William Cunningham, a former justice of the peace; Jesse Tyre and Miss Alice Haycock, all of Sterling township, have been taken from their beds by a mob of masked men and whipped with hickory switches. In every case the backs of the victims were literally cut to pieces. The victims were accused of immoral practices and had been warned to desist. The better class of people of the community is indignant at the outrage.

Association Not Dead.

Chicago, Dec. 13.—President Thomas J. Hickey and Magnates Quinn and Havenor of Milwaukee and W. H. Watkins of Indianapolis held a conference here on the affairs of the recently organized American Baseball association, and to all outward appearances were very confident of the success of their new venture. "From some of the newspaper reports one might be led to think the American association were dead," said Hickey, "but its prospects never were brighter. I expect opposition clubs only in Omaha and Kansas City, and I am sure we can take care of ourselves there. I do not believe that the Western league will put clubs in Milwaukee, Minneapolis or St. Paul, and all this rumored desertion of our backers in Columbus and Toledo is entirely without foundation. Our circuit will be as has been previously announced, with clubs in Columbus, Milwaukee, Indianapolis and Toledo in the east and Minneapolis, St. Paul, Omaha and Kansas City in the west."

LAMP FELL

Upon the Head of a Young Woman. Three Fatally Burned.

Logansport, Ind., Dec. 14.—Miss Sarah Gehring was roasted to death and her fostermother, Jennie Dailey, and her uncle, Joseph Dailey, were probably fatally injured in trying to save the young woman's life. A hanging lamp broke from its fastening to the ceiling and fell, striking the young woman upon the head and exploding.

Snow Not General.

Topeka, Dec. 14. — Severe cold weather is reported from numerous points in Kansas. Temperatures range from two or three degrees above to five below zero. Snow is not general. It is feared that the cattle on the great western ranges will suffer as the storm came so suddenly that their protection was inadequate. Winter wheat will be damaged to some extent. The cold in the wheat belt is severe, with little or no snow. Without snow and with continued cold the wheat will suffer greatly.

Disastrous Run on a Bank.

Laporte, Ind., Dec. 13.—An attempt made two weeks ago to rob the Wanatah bank of Wanatah, Laporte county, owned by Julius Conitz, caused a run on the institution which resulted in its suspension. Assets are $91,000, of which $40,000 is stock of the Eastern and Northern Railroad company, which is constructing a line between Toledo, O., and Benton Harbor, Mich. The liabilities are $29,100. Depositors and creditors will be paid in full.

Gutted by Fire.

Milwaukee, Dec. 12. — Godsmith & Company's house furnishing establishment was gutted by fire. Loss estimated at $50,000, most of which was on the stock.

The most Eminent Specialists in America to visit our city on

THURSDAY, DEC. 19th,

And will remain until Tuesday noon, December 24th, four days only, and will receive patients while here at the parlors of the PARK HOTEL.

Dr. Snell and Staff

—OF THE—

New York and Ohio Electro-Medical Institute are visiting a few of the principal cities of our country. This being their advertising trip, and to introduce their new system of curing disease they will give consultation, examination, advice and all medicine necessary to complete a cure FREE. All patients taking advantage of this offer will be expected to state to their friends the results obtained.

Don't fail to call on these renowned specialists. All diseases of men and women treated. No matter what your disease may be or of how long standing, there is no experimenting or guesswork; you will be told whether you can be cured or not.

They have an entirely new and original method of treating all kinds of deafness which has restored hearing to hundreds after they had been pronounced incurable. Catarrh in all its forms cured so it will never return by building up the cold-catching tissues.

If you have weak lungs or consumption, and have been told you are beyond help, don't fail to call on them and have a thorough examination, as a visit will cost you nothing and may save your life.

Their new discovery of absorbing medicine by electricity, in paralysis, loss of power, rheumatism, and all diseases of the nervous system is a godsend to suffering humanity. Medical men stand appalled at the marvelous cures that are being effected wherever this system has been introduced. Thousands who have given up all hope of ever being cured have now an opportunity of a lifetime to consult, without charge, Specialists of a national reputation. Remember, their knowledge of medicine, combined with electricity, gives them control of disease that others do not possess. If you are hard of hearing, are lame, or cannot walk, this new system will cure you quickly.

If you suspect kidney trouble, bring a two-ounce vial of your urine for a chemical and microscopic analysis.

If you are improving under your family physician do not come and take up our valuable time. Idlers and curiosity-seekers will please stay away.

Cancers, Tumors, Ulcers, all blood, skin and scalp diseases cured by an entirely new method. Piles and Rectocele cured in from 5 to 30 days without the knife.

Remember, not one penny will be charged for all the medicine required to complete a CURE, to all those taking treatment during this trip.

To Purchase Telegraph Lines.

Washington, Dec. 14.—Representative Jackson of Kansas has introduced a bill providing that the United States government purchase the Western Union and the Postal Telegraph companies and thereafter operate them in connection with the postoffice department. Provision is made for appraisal of the property of the companies and for the payment of its appraised value when the amount is reported to congress.

Bid For the Fight.

Charleston, S. C., Dec. 14.—Aimie Murray matchmaker of the Southern Athletic club of this city, has made a bid for the McGovern-Sullivan fight, offering 70 per cent of the gross receipts. He also offered a guarantee for the go between Young Corbett and Lenny and the latter's manager Jim Dougherty of Carbon, Pa., has wired his acceptance.

Eczema for Forty Years.

The Unqualified Statement of a Well Known Attorney, St. Ignace, Mich.

Some of the cures made by Dr. A. W. Chase's Ointment of stubborn and long continued eczema and skin diseases are causing much comment. People are beginning to realize that this Ointment is a wonder worker with all kinds of skin trouble. Attorney James J. Brown, St. Ignace, Michigan, writes as follows:

Dr. A. W. Chase Med. Co. Buffalo, N. Y.—Gents:—I cannot refrain from expressing my acknowledgement for the relief I have felt from Dr. Chase's Ointment. For 40 years I was afflicted with a skin disease which was located in one spot—on my leg. I have spent at a rough estimate five hundred dollars trying to effect a cure, and not until I applied this ointment did I get relief. You are strangers to me and this letter is prompted directly because I want to say and I feel as though I ought to say it. That Chase's ointment has effected a complete cure of my affliction. Three boxes did the work on my leg. I was also suffering from itching piles and applied the ointment which gave the best of satisfaction by affording me rest at night and rapidly causing the disease to disappear. I have received such relief and comfort from the ointment that I cannot withhold expressing my gratitude. I was so long afflicted with the tortures of eczema. I feel now that I am cured, a word of recommendation is due from me. Yours truly,

JAMES J. BROWN.

Dr. Chase's Ointment is sold at 50 cents a box at all dealers or Dr. A. W. Chase's Medicine Co., Buffalo, N. Y.

RUN OF A RUNNER.

Disappeared With Six Thousand Dollars of the Bank's Cash.

Mobile, Ala., Dec. 14.—Thursday afternoon Robert Shamblin, a runner employed by the People's bank, left the bank to take a package containing $6,000 to the local express office to be shipped to a Mississippi bank, and has since been missing. It has been discovered that he left town on the train for New Orleans. The police have been notified along his possible route. Shamblin is 22 years old and had been in the bank's employ several years.

After Ex-Governor Taylor.

Washington, Dec. 14.—In the house Representative Robinson (Ind.) introduced two measures designed to secure the extradition of ex-Governor Taylor of Kentucky from Indiana, where he is said to be sojourning, to Kentucky, where he is wanted in connection with the Goebel tragedy. One of the measures is for an investigation whether the governor of any state is justified in refusing to recognize extradition papers from the governor of another state. The other provides that in case a governor refuses to recognize extradition papers they may be executed by a United States marshal.

For Persecuted Poles.

Berlin, Dec. 14.—The anti-German temper of the Poles was shown at a Paderewski concert here, which was attended by a large number of Polish nobles. They presented Paderewski with many bouquets tied with Polish colors, red and white. The receipts of this concert will go to the families of those persons imprisoned as an outcome of the Wreschen school scandals, following which 25 persons were sentenced to various terms of imprisonment for attacks upon Prussian schoolmasters.

Killed Woman and Himself.

Fort Wayne, Ind., Dec. 14. — Fred Dorsey, 30, fatally stabbed Mrs. Cora Wilson, 35, and then cut his own throat. Dorsey called at the home of Mrs. Wilson and quarreled with her. He finally drew a revolver and fired twice at her without effect. The woman ran into the yard, but Dorsey overtook her and deliberately cut her throat from ear to ear and plunged the knife into her breast. He then cut his own throat. Both are alive but can not possibly recover.

Chile and Argentina.

Buenos Ayres, Dec. 14.—The Chilean reply to the representations of the minister of the Argentine republic to Chile has not yet been made known. The newspapers here publish bulletins that are assuring the public that all matters between the two countries will be honorably arranged.

Way Below.

Denver, Dec. 14 — The coldest weather in Colorado this winter is being experienced. In the mountain region the thermometers generally registered below zero, the lowest temperature reported being 21 below, at Gunnison. The record in Denver was a few degrees above zero.

Kissed and Made Up.

Amsterdam, Dec. 14 — Queen Wilhelmina and Prince Henry of the Netherlands, her husband, drove in an open carriage through Appledorn. The royal pair will return to The Hague.

Customs Inspector Killed.

Galveston, Dec. 14.—Alphonso Levy, United States customs inspector, was killed by being run over by a railroad train. He leaves a widow and six children.

No one can reasonably hope for health unless his bowels move once each day. When not attended to, disorders of the stomach arise. Biliousness, headache, dyspepsia and piles soon follow. NO MAKESHIFT.

In This Case the Work was Properly Done.

Any reader who has had backache and found relief by rubbing the back with liniments and lotions understands that the relief obtained was but a makeshift, for the ache returns. There's a way to do it so the ache will not come back. Read how it's done.

Mr. Joseph R. Kynett, locomotive engineer, of 830 E. Patterson street, Alliance, O., says: "For 35 years I stood at the throttle, flying over crossings, frogs and rough places on the road. It is no wonder my kidneys bothered me and that I suffered through their inactivity or their being over excited. Doan's Kidney Pills are the best kidney medicine in existence. I was treated by physicians and used patent medicines, but nothing equals Doan's Kidney Pills. Since I stopped the treatment I have had the grippe, but my kidneys did not annoy me."

AGAINST SCHLEY

Find the Majority of the Naval Court of Inquiry.

SCORED ON ELEVEN COUNTS.

Fault Found With Incidents In His Conduct of the Campaign.

HIS BRAVERY NOT TO BE QUESTIONED

Admiral Dewey, However, Sustains the Applicant in a Dissenting Opinion, Holding That Schley Was Senior Officer at Santiago and Is Entitled to the Credit Due For the Glorious Victory—The Two Reports and Comment of Admiral Schley, His Counsel and Others.

Washington, Dec. 14.—Secretary of the Navy Long on Friday night received and made public the findings of the court of inquiry which investigated the conduct of Rear Admiral Schley during the Santiago campaign. For seven weeks the court heard testimony, and for fully a month it deliberated upon that mass of evidence, finally reaching the conclusions announced. The result was a complete surprise, and it is probable that no prophecy has approached the truth. Instead of one report there are two. Both are signed by George Dewey, the president of the court, and by Sam C. Lemly, the judge advocate. This is a form said to be recognized in all courts of inquiry, the signatures of the other members not being necessary. But it is explained that Admiral Dewey signed the second report, a minority report, to express his qualification of or dissent from the views expressed by the court comprising, beside himself, Admirals Benham and Ramsey, in the first report.

It is said at the navy department that there will be no further proceedings in this celebrated case on the department's initiative. Secretary Long and Judge Advocate Lemly positively decline to discuss the finding in any phase. It is probable that he will simply append his signature with the word "approved" to the whole record. The court itself recommends no further proceedings owing to the lapse of time.

The Schley court of inquiry, after reviewing at length the testimony submitted to the court, makes the following reports. The first is the finding of Admirals Benham and Ramsey the second that of Admiral Dewey, these three comprising the court:

What the Court Found.

Commodore Schley, in command of the flying squadron should have proceeded with utmost despatch off Cienfuegos and should have maintained a close blockade. He should have endeavored on May 22, at Cienfuegos, to obtain information regarding the Spanish squadron by communicating with the insurgents at the place designated in the memorandum delivered to him at 8:15 a. m. that date.

He should have proceeded from Cienfuegos to Santiago de Cuba with all dispatch, and should have disposed his vessels with a view of intercepting the enemy in any attempt to pass the flying squadron.

He should not have delayed the squadron for the Eagle.

He should not have made the retrograde turn westward with his squadron.

He should have promptly obeyed the navy department's order of May 25.

He should have endeavored to capture or destroy the Spanish vessels at anchor near the entrance of Santiago harbor on May 29 and 30.

He did not do his utmost with the force under his command, to capture or destroy the Colon and other vessels of the enemy which he attacked on May 31.

By commencing the engagement with the port battery and turning the Brooklyn around with port helm, Commodore Schley caused her to lose distance and position with the Spanish vessels especially with the Vizcaya and Colon.

The turn of the Brooklyn to starboard was made to avoid getting her into dangerous proximity to the Spanish vessels. The turn was made toward the Texas and caused that vessel to stop and back her engines to avoid possible collision.

Admiral Schley did injustice to Lieutenant Commander A. C. Hodgson in publishing only a portion of the correspondence which passed between them.

Commodore Schley's conduct in connection with these events prior to June 1, 1898, was characterized by vacillation, dilatoriness and lack of enterprise.

His official reports regarding the coal supply and the coaling facilities of the flying squadron were inaccurate and misleading.

His conduct during the battle of July 3 was self-possessed and he encouraged, in his own person, his subordinate officers and men to fight courageously.

Admiral Dewey's opinion:

In the opinion of the undersigned the passage from Key West to Cienfuegos was made by the flying squadron with all possible dispatch. Commodore Schley having in view the importance of remaining off Cienfuegos with as much coal as possible in the ships' bunkers.

The blockade of Cienfuegos was effective.

Commodore Schley in permitting the steamer Adula to enter the port of Cienfuegos expected to obtain information concerning the Spanish squadron from her when she came out.

The passage from Cienfuegos to a point about 22 miles south of Santiago was made with as much dispatch as was possible while keeping the squadron a unit.

The blockade of Santiago was effective.

Commodore Schley was the senior officer of our squadron off Santiago when the Spanish squadron attempted to escape on the morning of July 3, 1898. He was in absolute command and is entitled to the credit due to such commanding officer for the glorious victory which resulted in the total destruction of the Spanish fleet.

The court makes the following recommendation: "In view of the length of time which has elapsed since the occurrence of the events of the Santiago campaign, the court recommends no further proceedings be had in the premises."

When the conclusions of Admiral Dewey were read to him Admiral Schley showed his pleasure, and it was evident from his manner that he regarded the statement from Admiral Dewey as a vindication of his cause.

He declined to make any statement concerning the court's findings, and, excusing himself from the little company which had gathered about him, he went to his apartments, where Mrs. Schley had been anxiously awaiting to hear the court's decision. Later the official copy was brought to the hotel by a messenger from the navy department.

Admiral Dewey was seen and declined to make any statement concerning the court's findings. He said that the court was not dissolved and that he was still bound by his oath of secrecy.

Counsel Rayner's Views.

Baltimore, Dec. 14.—Mr. Isidor Rayner showed keen disappointment when the findings of the Schley court were communicated to him. He said: "I would prefer now not to say anything in connection with the opinion. I think the country will almost unanimously accept Admiral Dewey's judgment. I shall advise the admiral to fight it to a finish, to open it by every appeal that is possible, congressional or otherwise and I believe that the sentiment of the whole country will uphold him in his resolve not to let the judgment stand."

Says Dewey Knows

New York, Dec. 14.—Captain Parker of Admiral Schley's counsel reached Perth Amboy, N. J. when he alighted from the train he was told the purport of the two reports. He said: "Until I have read the reports in full I can not say more than this. Admiral Dewey was right. He better than any one else in the world was qualified to judge this case."

THE WIND-UP.

Resolutions Accepted by the American Federation of Labor.

Scranton, Pa., Dec. 14.—This is the last day of the convention of the American Federation of Labor, and proceedings are being conducted with a whirl.

The convention decided to increase the per capita tax of national and international unions from one-third to one-half of 1 per cent per member per month, and also agreed to raise the per capita tax of federal and local trade unions from 5 to 10 cents a month for each member, the increase of 5 cents to go toward the erection of a defense fund for those unions.

A resolution instructing all affiliated bodies to hold absolutely aloof from all connection with the militia was laid on the table after a brief but lively debate.

These resolutions were adopted: Instructing the president to telegraph a protest of the American Federation of Labor to the president of the United States against the confirmation of the appointment of Francis Baker as judge of the United States circuit court of appeals in Indiana on the ground that his father, Judge John H. Baker, had granted injunctions against union workmen; instructing the executive committee to investigate the report that the immigrants killed in the railroad wreck near Seneca, Mich., recently, were brought to this country in violation of the immigration law.

Embezzlement Charged.

Birmingham, Ala., Dec. 14.—George W. Morgan, president, and George A. Blinne, Jr., treasurer of the Continental Security Redemption company, doing an extensive business in Alabama, Kentucky and Georgia, and W. L. Dodd, formerly secretary and treasurer of the Birmingham Debenture company, have been arrested on charges of embezzlement, the amounts alleged varying from $800 to $25,000. Four warrants are held against George W. Morgan, the amounts alleged aggregating $62,000. Two warrants are held against Blinne, one charging the embezzlement of $25,000 while the other charges the embezzlement of a check for $25,000.

Bank Robbed.

Sturgis, Ky., Dec. 14.—**The Bank of Sturgis was robbed of between $3,500 and $4,000 by robbers, who blew open the safe with nitroglycerin. The robbers are thought to have escaped on horses and to have followed the railroad track. Bloodhounds followed the trail for several miles, but lost it then on account of a rain. The posse traced the robbers farther than the dogs by finding occasionally pennies that had been dropped and which are supposed to have been part of the booty. Sledge hammers were stolen by the robbers from a blacksmith shop.**

Release of Miss Stone.

London, Dec. 14.—Under Sofia date the Telegraph publishes a dispatch to the effect that George Washburn, president of the Robert college at Constantinople, has arrived at Sofia on a confidential mission connected with the release of Miss Stone, the captive American missionary. The dispatch further says that it is rumored the United States will pay the demand of the brigands in full.

Court Palace Fired.

Shanghai, Dec. 14.—On the occasion of the birthday of the dowager empress of China, Nov. 29, some members of a secret society fired the palace at Kai Feng Fu. Two buildings were gutted before the fire was extinguished. It is believed that this attempt is the real explanation of the desire of Yung Lu, generalissimo of the Chinese army that the court hasten to Peking.

Hepburn Canal Bill.

Washington, Dec. 14.—The house committee on interstate and foreign commerce voted to favorably report the Hepburn bill providing for the construction of the Nicaragua canal. Mr. Fletcher (Minn.) was the only member voting against the bill.

Great Fire at Canton.

Hongkong, Dec. 14.—A big fire occurred at Lo Nan, a suburb of Canton. Four hundred houses were destroyed, some lives were lost and thousands of Chinamen were made homeless.

ON WEDNESDAY NEXT

Philippines Tariff Bill Will Be Placed On Its Passage.

TWO DAYS ALLOWED FOR DEBATE.

Minority Contend the Retention of the Archipelago Does Not Justify the Price Being Paid For It—Claims of the Majority of the Ways and Means Committee.

Washington, Dec. 14.—The bill to temporarily provide revenue for the Philippines was reported to the house by Mr. Payne, chairman of the committee on ways and means by unanimous consent an order for the consideration of this bill on Tuesday and Wednesday next was adopted, a total debate to close at 4 o'clock Wednesday when the bill will be placed upon its passage. The official announcement of the death of the late Representative Bronson of Pennsylvania, which occurred last summer was made by Mr. Cassel, his successor. The house then adjourned until Tuesday.

Chairman Payne of the committee on ways and means presented the majority report of the Philippine tariff bill, which says: "This bill is designed to raise revenue for the government and benefit the Philippine archipelago. It is intended to restore the status which existed prior to the late decision of the supreme court in the diamond rings case. The court holds that the Philippine archipelago is not a foreign country and therefore the general tariff law does not apply. This bill extends the rate now existing upon imports from foreign countries, to articles brought in from the Philippine islands. In the Philippine archipelago the United States Philippine commission prepared a tariff after much care and study. The object has been and is to raise sufficient revenue to support a government in the Philippines, to provide amply for the education of the people, to open the highways of commerce,

Both Foreign and Domestic,

and to provide ample police force for the preservation of orders. These different forms of tariff in force have produced a surplus of revenue after paying the expenses of the government. This bill proposes in the first section to make this Philippine tariff a part of the statutes of the United States. The necessity for a continuance of revenue which shall be both ample and certain is imperative. If we continue the police and constabulary system, it will call for a large increase in appropriations. We have enrolled 150,000 school children in the public schools. Of this number more than one-half are without any school house accommodation. It is necessary that we build suitable houses at once.

The minority report on the Philippine tariff bill presented by Mr. Richardson (Tenn.) was signed by all the Democrats of the ways and means committee except Mr. Robertson (La.). The report says in part: "The measure is but another step in the well marked line of imperialism. It is enacting a policy of pure colonialism, and the worst form of that policy. We are opposed to our government attempting to hold territories as colonies and treating the inhabitants thereof

As Subjects

and imposing upon them a government of force. This is the method of the empire instead of the republic. We oppose the whole policy of the majority in dealing with the Philippine archipelago."

The report further says that the secretary of war in effect made the tax law for the Philippines, and thus exercised greater power than most kings. Continuing it says: "The second section in effect declares that the Philippine islands are foreign territory to the extent that all importations therefrom into the United States shall pay the same rates of duty as are provided in the existing tariff laws of the United States known as the Dingley tariff act. The Dingley act has proven itself to be a trust-brooding measure. We witness daily the great trusts, born of the Dingley tariff law, so manipulating the manufactures and the prices of goods that our people are forced by them to pay at our own homes and in our own markets higher prices for their manufactured goods and commodities than the same goods and commodities are manufactured by them and shipped abroad and sold for in the foreign markets of the world. We do not believe that the trade we are now obtaining or that we are likely to obtain under our operations in the Philippines is worth what we are paying for it."

The report concludes by saying that our operations in the orient have already cost more than $100,000,000 and casualties of appalling magnitude.

Tremendous Handicap.

London, Dec. 14.—Sir Thomas Lipton said today: "I have been informed from New York that all the Shamrock II's sails, gear and blocks have been destroyed by fire. This is a tremendous handicap. I am not speaking of the financial loss, but all this material had been specially tested, and the entire boat is now left in the condition of a newly launched yacht. While I am not willing to say that it will absolutely prevent a race, it is a great disappointment and an immense handicap in the future."

Oklahoma Stormswept.

Guthrie, O. T., Dec. 14.—The heaviest snowstorm that has visited Oklahoma in 10 years has been raging. In many places four inches of snow are on the ground. The storm will cause great damage to cattle interests. Reports of intense suffering among stock are coming in from the ranges.

FOG LORE AND PROBLEMS.

London Is Going to Pay For a New Expert Investigation.

Although the [illegible] is of the world has suffered [illegible] mortal, her [illegible] is much yet [illegible] them. [illegible]

When the [illegible] above the [illegible] tic drifts northward [illegible] cold arctic [illegible] banks, it [illegible] perature [illegible] sults. The same thing comes about when warm sea air [illegible] gently inland over a region covered with snow or [illegible]. This latter situation arises frequently in winter.

But the cooling may also come about without even the slightest atmospheric movement in a horizontal direction. Frost forms, for instance, in a calm, when the rapid radiation of the earth's heat reduces the temperature of the air close to the ground several degrees below that of an elevation of only a few feet. Valley fogs are produced under substantially the same conditions. And while a fog bank usually lies at a low level and often rests upon the earth or sea it sometimes exists at an appreciable elevation. The latter fact would suggest possibilities of chilling from above rather than from below the particular stratum of the atmosphere in which it occurs.

A writer in Nature deems it desirable to ascertain the source from which the water comes which is found in the form of fog, but it would seem to be equally if not more instructive to discover, if possible, the method by which the chilling is produced. And this research may need to be broad enough to cover all temperatures at considerable heights. Balloon and kite observations show that the rate at which temperature falls with elevation above the earth is often very irregular. And it is probable that in that irregularity are hidden meteorological secrets of great importance. Already the American government and private meteorologists, like Mr. Rotch and his assistants, have explored the upper air with kindred objects in view, but not specially for the purpose of forecasting fog. Whether this procedure would be of value to London can be determined perhaps only by experiment.

What makes a London fog worse than any other fog is the [illegible] which it is developed. [illegible] [illegible]

MAD DOG SCARE.

Plainfield Canines Are Confined by Order of the Authorities.

Plainfield has a mad dog scare. Early in the week a yellow cur appeared in the village and showed signs of rabies but no one made an effort to kill it. It fought with every dog it could find, and the township and village authorities have ordered all dogs confined awaiting developments.

HEADACHE CHARMED.

It Is the Experience of Coshocton People That Proves the Magical Effects of Dr. A. W. Chase's Nerve Pills With Sick and Nervous Headache.

It has never come to any other medicine—never to all medicines—the abundance of Coshocton testimony showing the unequaled merit established by Dr. A. W. Chase's Nerve Pills. There is probably no case of nervous sick headache they will not cure.

Mrs. C. Rieber, of 415 West Sycamore street, Coshocton, Ohio, says: "Dr. A. W. Chase's Nerve Pills, gave me quick and rapid results in curing good, hard, nervous headaches. The result of the use of the box I got at C. E. Anderson's drug store was so excellent I feel that I can conscientiously recommend them to others in similar troubles. They steady the nerves nicely as well."

Dr. A. W. Chase's Nerve pills are sold at 50c a box at dealers or Dr. A. W. Chase Medicine Co., Buffalo, N. Y. See that portrait and signature of A. W. Chase, M. D., are on every package.

Pneumonia Prevented.

Among the tens of thousands who have used Chamberlain's Cough Remedy for colds and lagrippe during the past few years, to our knowledge, not a single case has resulted in pneumonia. Thos. Whitfield & Co., 240 Wabash avenue, Chicago, one of the most prominent retail druggists in that city, in speaking of this, says: "We recommend Chamberlain's Cough Remedy for lagrippe in many cases, as it not only gives prompt and complete recovery, but also counteracts any tendency of la grippe to result in pneumonia." For sale sale by C. E. Anderson, No. 2 Forbes block.
